MM:04
Finding Median:
$\Rightarrow$ The Median is the middle number in a set of data.
Find the median of these numbers.

Odd amount of numbers:
$12,4,6,9,10,11,5$
Ordered List: 4, 5, 6, 9, 10, 11, 12
The middle number is 9
Median = 9

1) $14,10,16,18,14$
$\square$

Median:
2) $62,61,60,64$
$\square$

Median:
3) $3,4,1,1,2,6,7$

Median:

Even amount of numbers:
$3,6,1,2,5.6$
Ordered List: 1, 2, 3, 5, 6, 6
The middle number is 3,5
Median $=4$
4) $28,24,26,20,21,24$

Median:
5) $17,18,20,34,36,17,17$

Median:
6) $51,50,53,54,52$

Median:
$\qquad$
$\qquad$

## Answer key

MM:04
Finding Median:
$\Rightarrow$ The Median is the middle number in a set of data.
Find the median of these numbers.

Odd amount of numbers:
$12,4,6,9,10,11,5$
Ordered List: 4, 5, 6, 9, 10, 11, 12
The middle number is 9
Median = 9

1) $14,10,16,18,14$
$10,14,14,16,18$

Median: 14
2) $62,61,60,64$
$60,61,62,64$

Median: 61.5
3) $3,4,1,1,2,6,7$
$1,1,2,3,4,6,7$

Median: 3

Even amount of numbers:
3, 6, 1, 2, 5. 6
Ordered List: 1, 2, 3, 5, 6, 6
The middle number is 3,5
Median $=4$
4) $28,24,26,20,21,24$
$20,21,24,24,26,28$

Median: 24
5) $17,18,20,34,36,17,17$
$17,17,17,18,20,34,36$

Median: 18
6) $51,50,53,54,52$
$50,51,52,53,54$

Median: 52
