RANGE

Finding Range:

→ The Range is the difference between the largest and smallest values in the data set.

Find the range of these numbers.

20, 45, 60, 72, 33, 48, 64

Largest value: 72   Smallest value: 20

Range = Largest value - Smallest value

Range = 72 - 20 = **52**

1) 29, 14, 21, 18, 19, 20, 16, 17

Large number:
Small number:

Range: _____

2) 13, 16, 18, 10, 10, 8

Large number:
Small number:

Range: _____

3) 65, 78, 89, 43

Large number:
Small number:

Range: _____

4) 10, 10, 32, 43, 28

Large number:
Small number:

Range: _____

5) 5, 8, 2, 1, 10, 8, 9, 7

Large number:
Small number:

Range: _____

6) 9, 6, 4, 3, 19, 21, 3

Large number:
Small number:

Range: _____

RANGE

Answer key

Finding Range:

⇒ The Range is the difference between the largest and smallest values in the data set.

Find the range of these numbers.

20, 45, 60, 72, 33, 48, 64

Largest value: 72   Smallest value: 20

Range = Largest value - Smallest value

Range = 72 - 20 = **52**

---

1) 29, 14, 21, 18, 19, 20, 16, 17

Large number: **29**
Small number: **14**

Range: **15**

2) 13, 16, 18, 10, 10, 8

Large number: **18**
Small number: **8**

Range: **10**

---

3) 65, 78, 89, 43

Large number: **89**
Small number: **43**

Range: **46**

4) 10, 10, 32, 43, 28

Large number: **43**
Small number: **10**

Range: **33**

---

5) 5, 8, 2, 1, 10, 8, 9, 7

Large number: **10**
Small number: **1**

Range: **9**

6) 9, 6, 4, 3, 19, 21, 3

Large number: **21**
Small number: **3**

Range: **18**
