

Name _____

FACTORS

Factors are the numbers that are multiplied together to form a product.

A factor is a number that divides the given number without leaving any remainder.

The factors of a number can either be positive or negative.

Example :

$$\begin{array}{ccccccc} 3 & \times & 5 & = & 15 \\ \swarrow & & \searrow & & \\ \text{Factor of 15} & & \text{Factor of 15} & & \end{array}$$
