

# Squaring Numbers

Name \_\_\_\_\_

Score \_\_\_\_\_

## Answer key

Write the square of the numbers given below.

1)  $3^2 = \underline{3 \times 3} = \underline{9}$

2)  $17^2 = \underline{17 \times 17} = \underline{289}$

3)  $22^2 = \underline{22 \times 22} = \underline{484}$

4)  $10^2 = \underline{10 \times 10} = \underline{100}$

5)  $30^2 = \underline{30 \times 30} = \underline{900}$

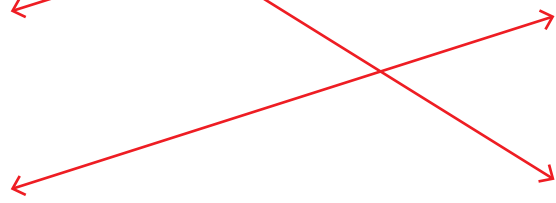

6)  $18^2 = \underline{18 \times 18} = \underline{324}$

7)  $23^2 = \underline{23 \times 23} = \underline{529}$

Match the following.

1)  $(-6)^2$    $625$

2)  $25^2$    $361$

3)  $(-19)^2$    $36$

4)  $(-11)^2$    $121$
