# READING TEMPERATURE

## Answer key

Write the thermometer readings and find their difference.

15 °C

-25 °C

Difference from A to B = 40 °C

22 °F

35 °F

Difference from A to B = 13 °F

-2 °C

7 °C

Difference from A to B = 9 °C

24 °F

11 °F

Difference from A to B = 13 °F
