

Translating phrases

Name _____

Score _____

Match the following.

1) m square increased by n square

$$(m + n)^2$$

2) Take away n from m

$$mn$$

3) Product of m and n

$$1 - mn$$

4) Square of the sum of m and n

$$m^2 + n^2$$

5) Product of m and n subtracted from one

$$m - n$$

Match the following.

1) $\frac{2 - w}{4}$

w minus one whole cube

2) $15w^3$

Divide the difference of two and w by four

3) $w - \frac{2}{3}$

Eleven added to w

4) $11 + w$

Fifteen times w cube

5) $(w - 1)^3$

Subtract two by three from w

Name _____

Score _____

Answer key

Match the following.

1)	m square increased by n square	$(m + n)^2$
2)	Take away n from m	mn
3)	Product of m and n	$1 - mn$
4)	Square of the sum of m and n	$m^2 + n^2$
5)	Product of m and n subtracted from one	$m - n$

Match the following.

1)	$\frac{2 - w}{4}$	w minus one whole cube
2)	$15w^3$	Divide the difference of two and w by four
3)	$w - \frac{2}{3}$	Eleven added to w
4)	$11 + w$	Fifteen times w cube
5)	$(w - 1)^3$	Subtract two by three from w
