

Large Number Addition

Name _____

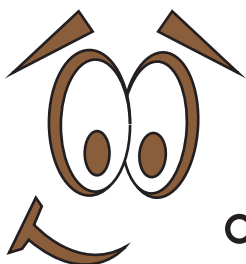

Score _____

- 1) A city planted 125,600 trees in one area and 98,450 trees in another area. How many trees were planted in total?

- 2) A company earned \$245,750 in the first month and \$186,425 in the second month. What was the total earning?

- 3) A wildlife park has 156,800 visitors in spring and 143,650 visitors in summer. How many visitors came altogether?

- 4) A factory made 325,450 products in one year and 278,650 products the next year. How many products were made in total?

Infobit

Giraffes have the same number of neck bones as humans — seven!

Large Number Addition

Name _____

Score _____

Answer Key

- 1) A city planted 125,600 trees in one area and 98,450 trees in another area. How many trees were planted in total?

$$\underline{125,600 + 98,450 = 224,050 \text{ trees}}$$

- 2) A company earned \$245,750 in the first month and \$186,425 in the second month. What was the total earning?

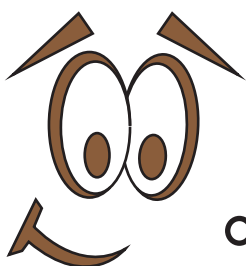

$$\underline{245,750 + 186,425 = 432,175 \text{ dollars}}$$

- 3) A wildlife park has 156,800 visitors in spring and 143,650 visitors in summer. How many visitors came altogether?

$$\underline{156,800 + 143,650 = 300,450 \text{ visitors}}$$

- 4) A factory made 325,450 products in one year and 278,650 products the next year. How many products were made in total?

$$\underline{325,450 + 278,650 = 604,100 \text{ products}}$$
